DRAFT

Corinth Town Hall Access Project
Accessibility Modification Community Development Block Grant

Minutes of Public Hearing- April 7, 2025, 5:30 PM at Town Hall

Attending for the Selectboard and Town Hall Building Committee: Carl Demrow and Norm Collette.

Members of the public attending: Susan Fortunati, Robert Fortunati.

Carl Demrow called the public hearing to order at 5:30 PM

Bob suggested we cut the bank back to make Moore room for parking.

Norm and Carl reviewed the copies of the plans with Susan and Bob.

Susan asked how the floor plan would work and there was a discussion of the floor plan and the required footings.

Norm noted that the propane tank behind the vault are going to be moved.

Susan said that Martha could not be there but was concerned about the loss of natural light in the office.

Bob asked about the toward-the -building grading and said he'd like to see that fixed so water does not drain toward the building. Bob asked how old the roof was and there was a discussion about managing the water that comes off the roof. We discussed the need or not for ice cleats on the proposed porch roof.

Both Susan and Bob said they'd like to see a concrete apron at the bottom of both the ramp and stairs.

Bob said he'd like to see the ramp enclosed with clear panels in the winter to keep snow from blowing in on the ramp.

Susan asked if the grant required town audit results.

The meeting was adjourned at 6:38 PM.
