Jeff and Sandy Spiegel mentioned an educational program involving fourth grade students and Simone Whitecloud, an ethnobiologist from Dartmouth College. Also, Jeff developed a poster to put up in the trailer at the transfer station for the food shelf. A notice will be put in the LRN and remind people at town meeting. Jeff also presented a plaque example for the Shea Town Forest. He mentioned it would be great to have an indigenous person to do the plaque. Luke Campbell also offered his artistic services at the January meeting. Glynn mentioned we have funds in the town forest to put towards the plaque.
